

VALA

The Birth of Vala:

Water... The source of life, the purest force of nature. Every drop shapes life, every flow tells a story. Vala is the name of a brand that listens to this story. On our journey, which began with a deep respect for water, we didn't just guide its flow; we made it a part of elegance and beauty.

Vala touches the heart of bathrooms and kitchens. Our shower systems, faucets, and accessories offer not only functionality but also a living experience in every detail. In our designs, we unite the purifying power of water with the grace of modern life. Each of our products is carefully crafted to bring peace and comfort to your home.

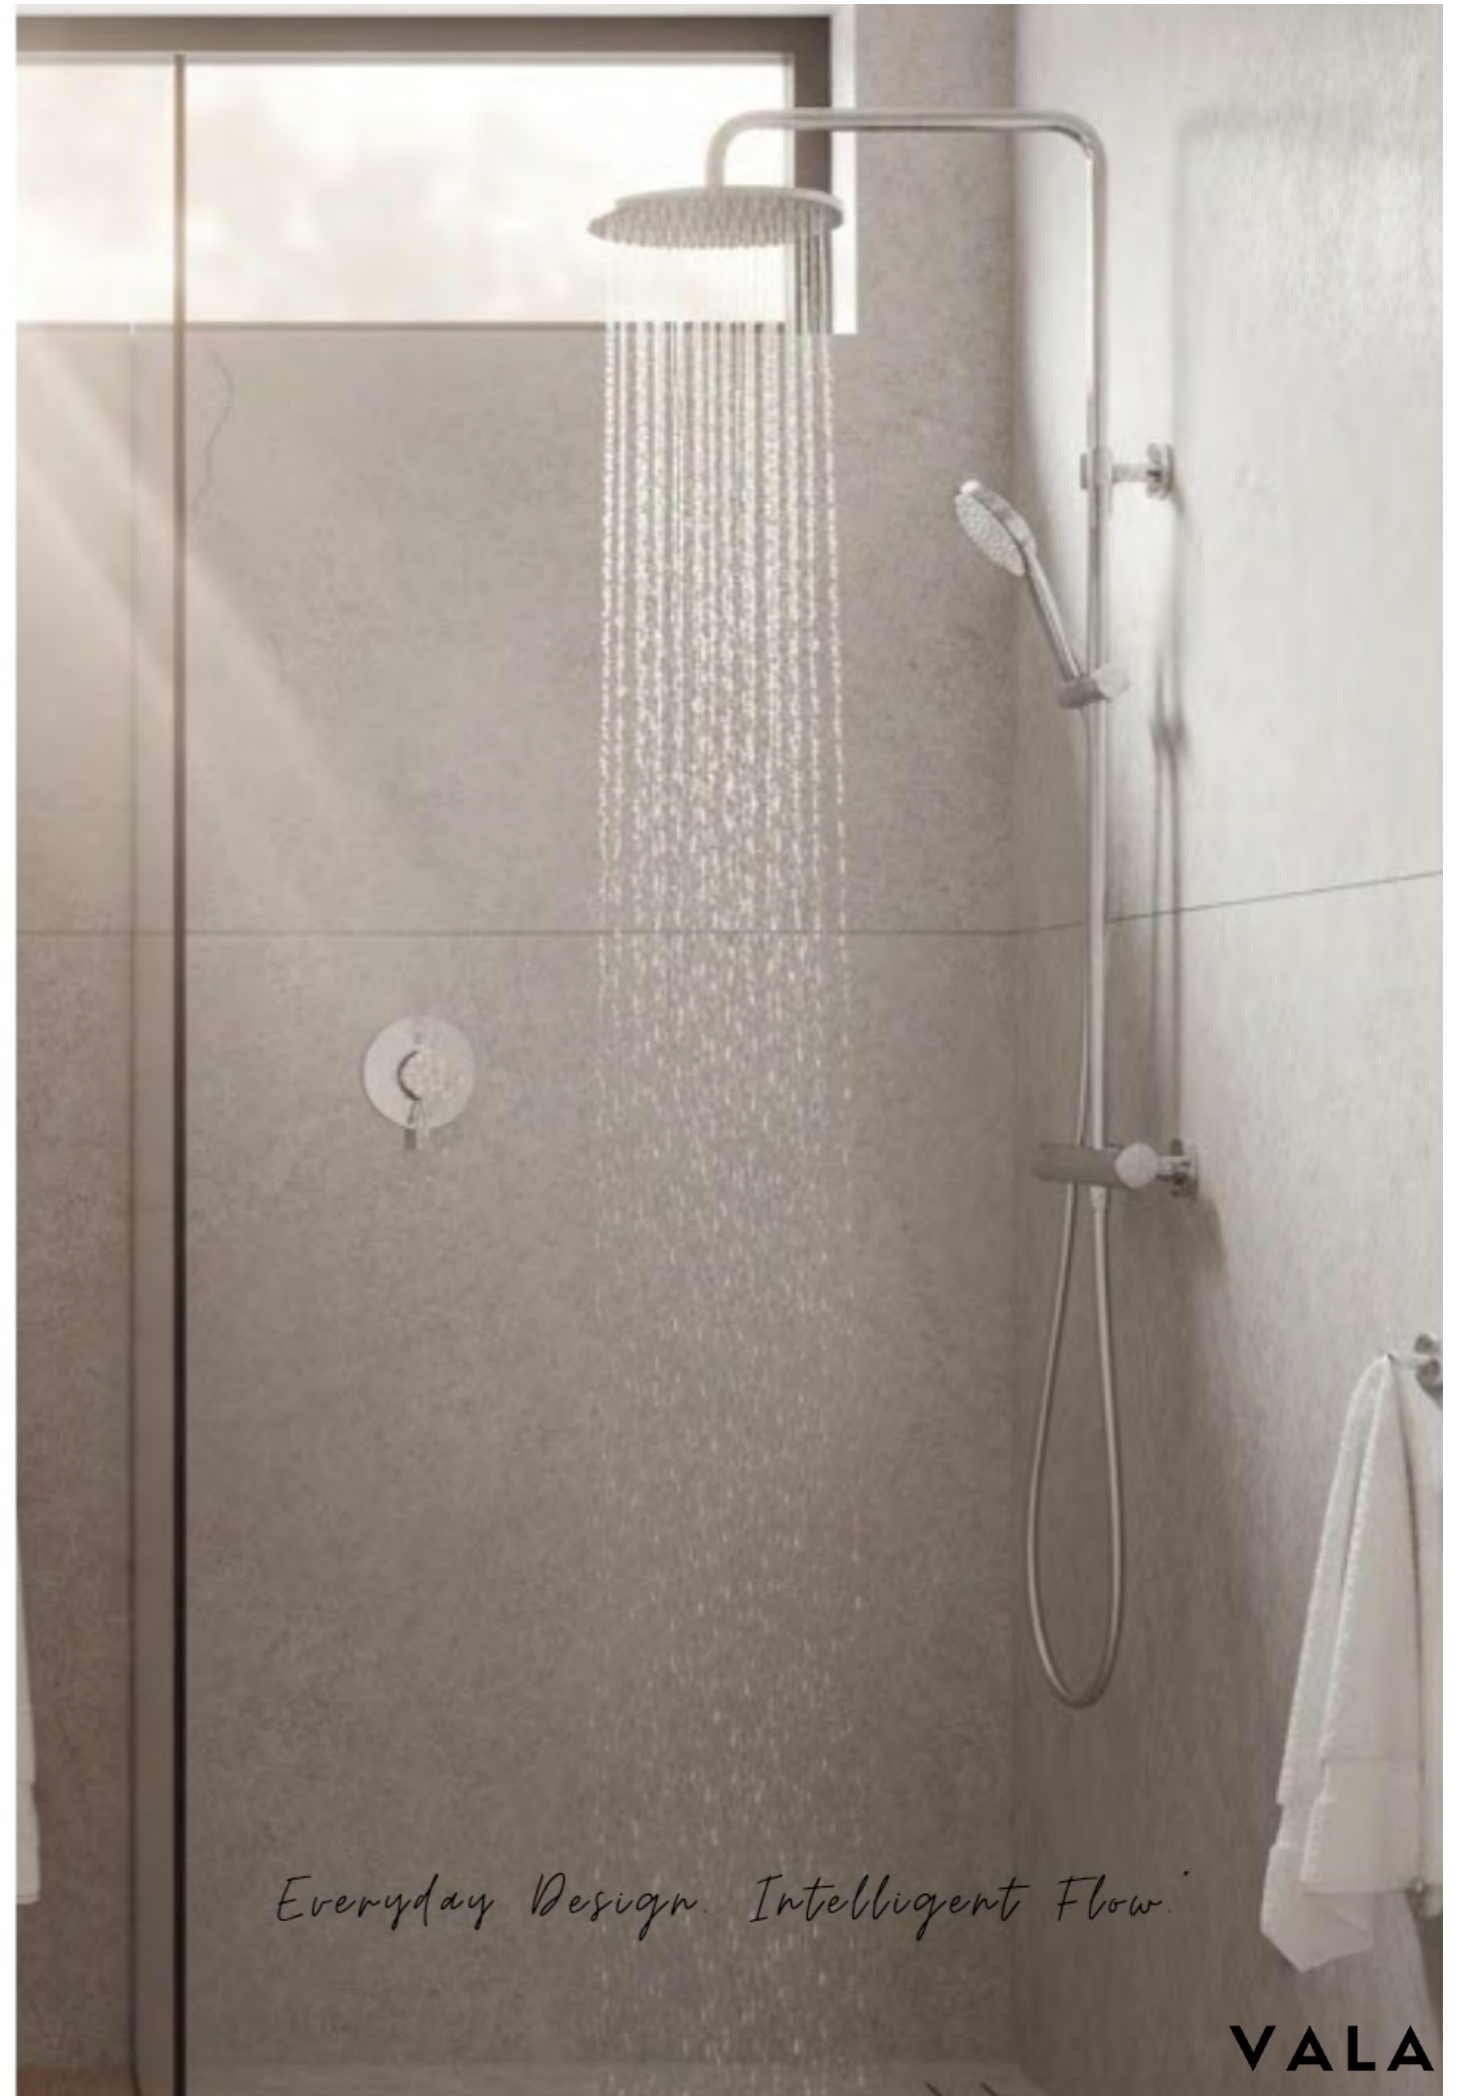

With years of experience and craftsmanship shaped with precision, today Vala resonates across the globe, in more than 40 countries. Vala does not just produce ordinary products; it redefines water's journey as it touches the human spirit. Because we believe in the magic of water—and we bring that magic into your homes.

TRUSTED IN 42+ COUNTRIES

From Istanbul to the world – where design meets precision and innovation flows through every detail.

VALA represents the excellence of Turkish craftsmanship, bringing reliability, style, and performance to bathrooms in more than 42 countries across the globe.

Everyday Design. Intelligent Flow.

VALA

Refresh with Quality

Water is the essence of life – and at VALA, we transform it into an experience. Founded on craftsmanship, innovation, and design excellence, VALA represents the new generation of Turkish bathroom and kitchen solutions – from elegant faucets and advanced shower systems to refined accessories and functional details.

Each VALA product is designed with precision engineering and environmental consciousness, combining durable materials, advanced coating technologies, and water-saving innovation.

Our mission is to deliver lasting performance while helping to preserve the world's most valuable resource – water.

Through smart aerators, optimized flow systems, and sustainable production methods, VALA reduces water consumption without compromising comfort or aesthetics.

Every drop is controlled, refined, and experienced with purpose.

Inspired by the balance of nature and technology, VALA products elevate everyday rituals – from the smooth operation of a perfectly balanced mixer to the rejuvenating feel of a rain shower.

VALA - Refresh with Quality, Save with Purpose.

Everyday Design. Intelligent Flow

About Us

At Vala, we take pride in being a leading manufacturer and exporter of high-quality shower systems, faucets, and brass bathroom accessories. Our factory, located in Istanbul, covers an impressive 5000 square meters, and we use only the finest materials and latest technology to produce products of unparalleled quality.

We are proud to say that our products are exported to more than 42 countries worldwide, and our commitment to timely delivery ensures that our customers always receive their orders when they need them.

We stay ahead of the curve by continuously following the latest trends and offering innovative products at competitive prices. And, with our extensive range of certificates, you can trust that our products are of the highest quality and meet all safety and performance standards.

We also offer OEM services to support our customers' unique needs and specifications. At Vala, we believe that customer satisfaction is key to our success, which is why we stand behind every product with a guarantee of quality.

When you choose Vala, you can be confident that you are choosing the very best. Our products are proudly made in Turkey, and our commitment to excellence in every aspect of our business makes us the premier choice for all your shower system, faucet, and brass bathroom accessory needs.

Mission

We aim to provide quality production, a high employment rate, and customer satisfaction while adding a dynamic feature to product quality and signing solutions that will make a difference in your bathrooms and kitchens.

Vision

In addition to placing the Vala brand among the most preferred bathroom and kitchen accessories brands in the world, it also develops alternatives that will meet the expectations with luxury, high quality, and solution-oriented products.

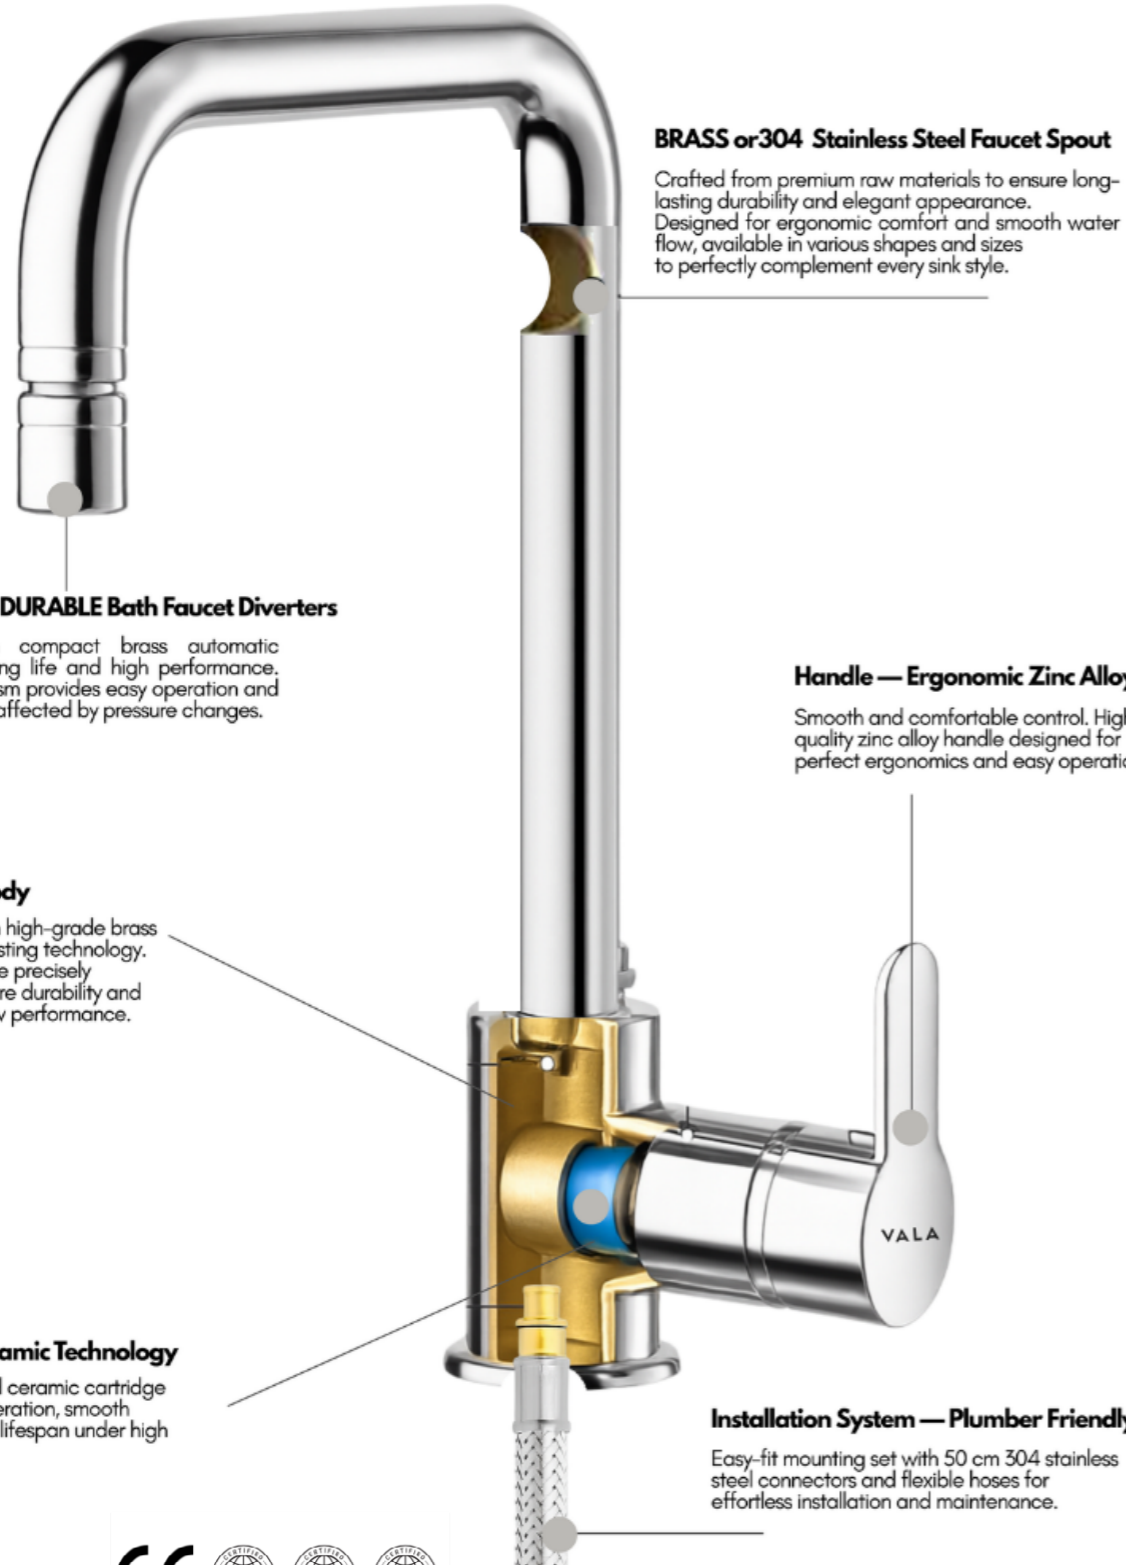

“Refresh with Quality ”

THE PERFECT BALANCE OF DESIGN & ENGINEERING

Every VALA faucet is the result of precise engineering and refined design — created to deliver exceptional performance while preserving natural resources.

Equipped with advanced water-saving technology and made from durable, high-grade materials, VALA faucets ensure long life, elegant comfort, and maximum water efficiency without compromising flow or style.

BRASS or 304 Stainless Steel Faucet Spout

Crafted from premium raw materials to ensure long-lasting durability and elegant appearance. Designed for ergonomic comfort and smooth water flow, available in various shapes and sizes to perfectly complement every sink style.

PRACTICAL AND DURABLE Bath Faucet Diverters

Manufactured with compact brass automatic diverters ensuring long life and high performance. The locking mechanism provides easy operation and stable water flow unaffected by pressure changes.

100% BRASS Body

Manufactured from high-grade brass using advanced casting technology. Wall thicknesses are precisely engineered to ensure durability and optimum water flow performance.

Handle — Ergonomic Zinc Alloy

Smooth and comfortable control. High-quality zinc alloy handle designed for perfect ergonomics and easy operation.

Installation System — Plumber Friendly

Easy-fit mounting set with 50 cm 304 stainless steel connectors and flexible hoses for effortless installation and maintenance.

5 YEARS WARRANTY

MADE IN TÜRKİYE

Superior Performance with High-Quality Materials: The Difference in Our Faucets

1. Use of MS 58 Brass Material

- Our Products: We use MS 58 brass material.
- Market Products: Generally use lower quality brass or alternative materials.
- Benefit: MS 58 brass offers superior durability and corrosion resistance, ensuring long-lasting use.

2. Thickness of Chrome Plating

- Our Products: 16-17 microns thickness of chrome plating.
- Market Products: Generally around 13 microns thickness.
- Benefit: Thicker chrome plating enhances the product's shine and corrosion resistance.

3. Heavy and Durable Faucet Bodies

- Our Products: Heavier and sturdier faucet bodies compared to the market.
- Benefit: A heavier body increases the product's robustness and longevity.

4. Use of First-Class Cartridges

- Our Products: High-quality first-class cartridges.
- Market Products: Generally use standard cartridges.
- Benefit: High-quality cartridges offer better water flow control and longer lifespan.

5. Brass Diverters, Aerators, and Cartridge Nuts

- Our Products: Diverters, aerators, and cartridge nuts are made of brass.
- Market Products: Use stainless steel or plastic materials.
- Benefit: Brass material provides superior durability and corrosion resistance.

6. Premium Stainless Steel 304 Quality Flex Hoses

- Our Products: 50 cm long, stainless steel 304 quality flex hoses with brass connectors.
- Market Products: Generally 35-40 cm long, stainless steel 201 quality flex hoses with stainless steel or zamak connectors.
- Benefit: Longer and higher quality flex hoses provide better flexibility and durability.

7. Brass Mounting Screws

- Our Products: Mounting screws are made of brass.
- Market Products: Use zamak or stainless steel screws.
- Benefit: Brass screws are long-lasting and durable.

8. Stainless Steel 304 Quality Tubes

- Our Products: Stainless steel 304 quality tubes.
- Market Products: Generally use 201 quality tubes.
- Benefit: 304 quality tubes offer higher corrosion resistance and durability.

9. Heavy and High-Quality Handles

- Our Products: High-quality and heavy zamak handles.
- Market Products: Lighter zamak handles.
- Benefit: Heavier handles offer superior robustness and durability.

SHOWERS

We are proud to say that all of our shower systems are made exclusively in Turkey, ensuring the highest levels of craftsmanship and quality.

At Vala, we understand that our customers demand the very best, and that's why we offer a 3-year warranty on all of our shower systems. This means that you can have complete peace of mind knowing that your investment is protected for years to come.

We also take pride in our commitment to on-time production and delivery. We understand the importance of timely delivery, especially in the construction and renovation industry, and we work tirelessly to ensure that our products are delivered on time, every time.

At Vala, we believe that a shower system should be more than just a basic bathroom fixture. That's why we combine exceptional quality, reliability, and style to create a shower experience that is both luxurious and functional. With features such as adjustable water flow and temperature control, our shower systems offer a level of customization that is unmatched in the industry.

We are committed to providing the highest levels of customer satisfaction, and we stand behind our products with a satisfaction guarantee. Experience the difference that Vala Shower Systems can make in your bathroom, and elevate your shower experience to a new level of luxury and functionality.

HOW TO CLEAN

Cleaning chrome faucets is relatively easy and can be done using a few simple steps:

-First, turn off the water supply to the faucet to prevent any water splashing during the cleaning process.

-Next, use a soft cloth or sponge to wipe the faucet gently. Avoid using abrasive materials, such as steel wool or scouring pads, as they can scratch the chrome surface.

-Apply a small amount of mild soap or liquid detergent to the cloth or sponge and continue to wipe the faucet until it is clean.

-Rinse the faucet with warm water to remove any soap residue.

-Finally, dry the faucet with a clean, dry cloth to prevent water spots and streaks.

If the chrome faucet has stubborn stains or water spots, you can use a mixture of vinegar and water. Simply mix equal parts of white vinegar and water, apply the solution to the affected area, and let it sit for a few minutes before wiping clean with a soft cloth.

It's important to note that harsh chemicals, such as bleach or ammonia, should not be used on chrome faucets as they can damage the finish. Additionally, avoid using abrasive cleaners or scrubbing pads as they can scratch the surface and cause permanent damage to the faucet.
